

**Zadania do omówienia na ćwiczeniach  
w piątek 20.11.2020 i poniedziałek 23.11.2020.**

**Zadania należy spróbować rozwiązać przed ćwiczeniami.**

W każdym z poniższych zadań podaj w postaci uproszczonej (np. liczby wymierne muszą być podane w postaci liczby całkowitej lub ułamka nieskracalnego) kresy zbioru oraz określ, czy kresy należą do zbioru.

Kres może być liczbą rzeczywistą lub może być równy  $-\infty$  albo  $+\infty = \infty$ .

$\mathbb{N} = \{1, 2, 3, 4, 5, \dots\}$  oznacza zbiór liczb naturalnych (całkowitych dodatnich).
